

# CARGO MAXI SPACE | MAXI SPACE DUO

High cabinet system

NOVELTY!

# CARGO MAXI SPACE

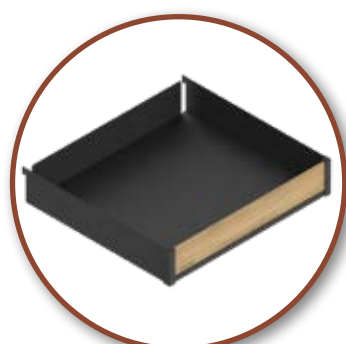

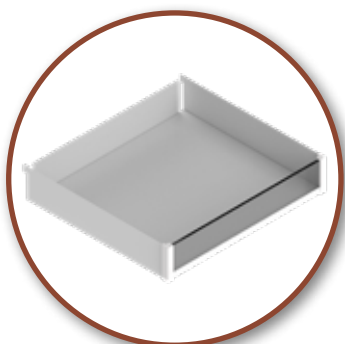

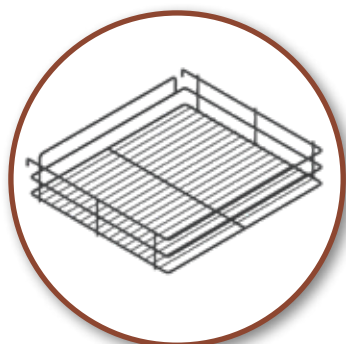

Cargo Maxi Space is a solution for high cabinets. When you open the cabinet, **the front cabinet automatically pulls outside, providing easy and quick access to stored products**. The possibility to adjust the height of the shelves hanging allows you to match their height to the dimensions with the stored items, which increases functionality and comfort in use.

The product is available in four color versions: **black basket with wooden front decor element, white with glass, and a classic version with wire baskets in graphite or chrome**, so it can be perfectly matched to any kitchen interior. **The universal design** allows installation in both left and right opening cabinets. The stable base frame guarantees long-life use and the safety of stored products. This is an ideal solution for those who appreciate order, convenience and modern design in their kitchen.

# CARGO MAXI SPACE

- 1 universal construction, model right - left
- maximum load of the whole system: 70 kg (14 kg per single basket)
- 2 possibility of height adjustment of hanging baskets improves flexibility of product use
- 3 when the front is opened, the automatic extension of the baskets guarantees easy access to the stored items
- 4 each PURO shelf has equipped with anti-slip mat
- roller runner with partial extension
- three baskets type for choosing

has won the Diamond  
of the Furniture Industry 2024  
in the kitchen zone category,  
kitchen equipment,  
premium quality.

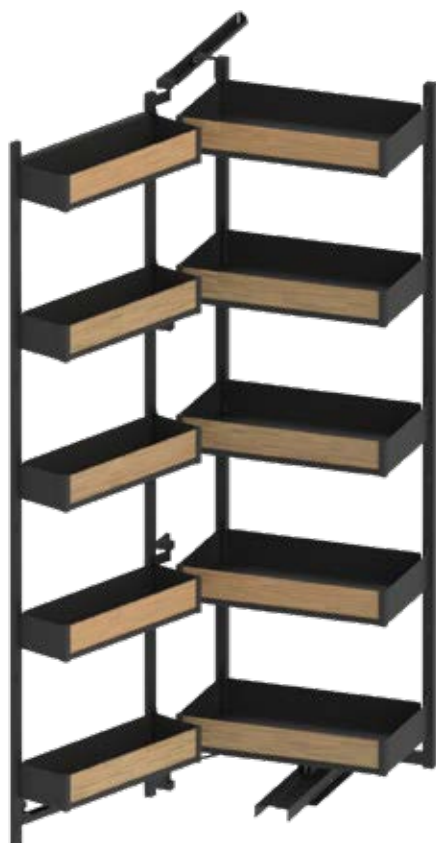

# CARGO MAXI SPACE DUO

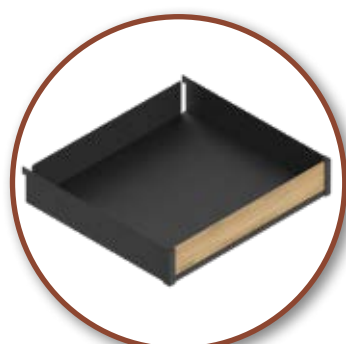

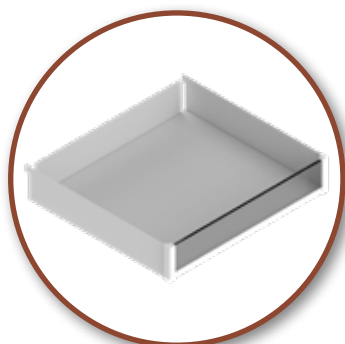

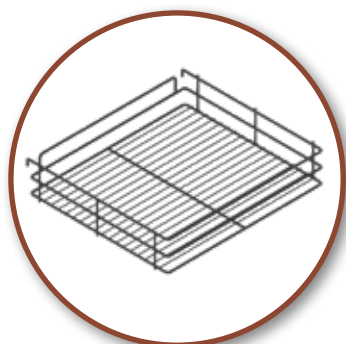

Cargo Maxi Space Duo is an innovative solution for organising the storage area. **The system is similar to a refrigerator with shelves located both inside the cabinet and on the front inside.** This guarantees easier organisation and access to the items stored in. The internal baskets also move to the front when the door is opened. The hanging height of the shelves can be adjusted to The height of the shelves can be suit according your needs and the size of your items.

The product is available in four color versions: **black basket with wooden front decor element, white with glass, and a classic version with wire baskets in graphite or chrome.** The universal construction allows it to be fitted in both left and right-hand cabinets, and by mounting two systems side by side that open to both sides, a very space-saving larder is created, where all stored items are within easy reach. **The stable construction, timeless colours, capacity and functionality** makes the Cargo Maxi Space Duo suitable for any interior, not only in the kitchen, but also in the service room, pantry, laundry room or wardrobe.

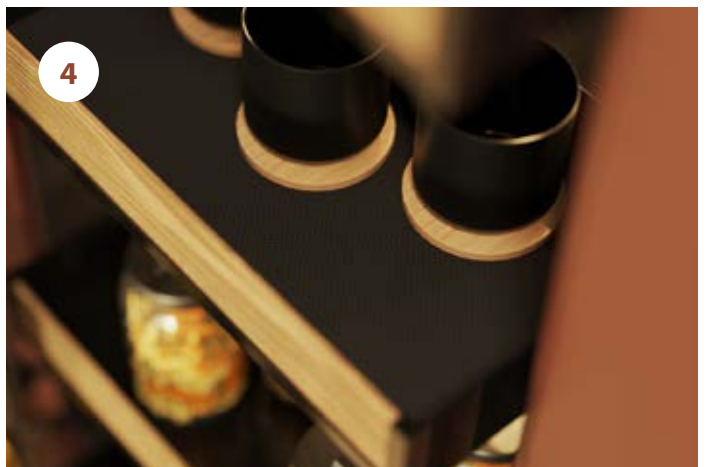

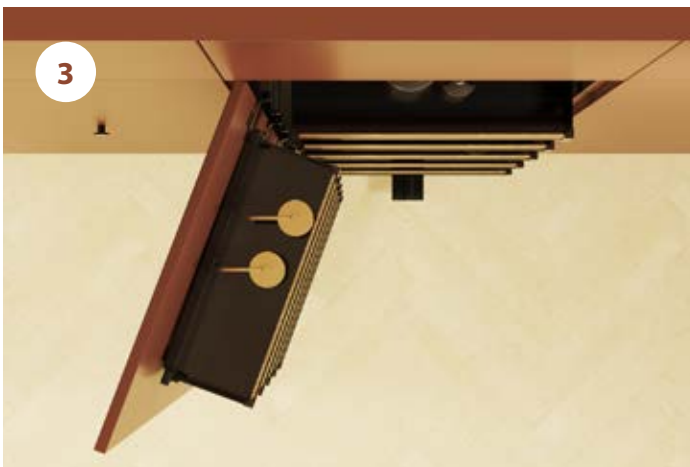

# CARGO MAXI SPACE DUO

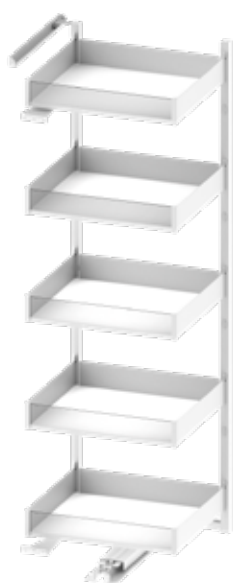

- 1 universal construction, model right-left
- max. load capacity of the whole system: 75 kg (10 kg na kosz, per basket, 5 kg for the basket hanging on front)
- 2 possibility of height adjustment of hanging baskets improves flexibility of product use
- 3 when the front is opened, the automatic extension of the baskets guarantees easy access to the stored items
- 4 each PURO shelf has equipped with anti-slip mat
- roller runner with partial extension
- three baskets type for choosing
